NEW HORIZONS:
Linking healthcare quality to physician competence

While the healthcare system is relentlessly advancing and evolving, credentialing systems can remain mired in the Stone Age. Join Team Med Global and explore a new era of credentialing, one in which redesigned systems create efficiencies that deliver value throughout the organization.

Objectives:

1. Identify 3 indicators of an outdated credentialing system
2. Describe 5 key elements of credentialing redesigned
3. Explain efficiency benchmarks used to evaluate value
